Lest We Forget

The Plaques do not show a Roll of Honour. The Roll given in this document has been compiled from multiple sources.

460SQN was a World War II RAAF Squadron operating in RAF Bomber Command. It was established as the result of the Air Training Plan (commonly referred to the Empire Air Training Scheme in Australia) agreed in Ottawa in 1939 that provided for Canada, Australia and New Zealand to supply a fixed number of trained aircrew members (pilots, navigators and wireless air gunners) on a monthly basis to the RAF to fight in the War against Germany. Article XV of the
Plan permitted for the establishment of national Squadrons within the RAF Order of Battle and through the War the RCAF formed 44 Squadrons (Nos. 400-443), the RAAF 17 (Nos. 450-464, 466, 467) and the RNZAF 6 Squadrons (Nos. 485-490). These Squadrons are commonly referred to as Article XV Squadrons but only some operated within Bomber Command.

The Roll of Honour for 460SQN is shown in the chronological order of events. The names of RAAF fatalities are shown in Blue and other Services in Red. Names have been grouped by crew and listed in alphabetical order, with details of the operation or accident shown before the first named crew member. RAAF crew members also have either their Roll of Honour or Place of Birth from the Department of Veterans’ Affairs WWII Nominal Roll shown along with the date of discharge where relevant. Further biographical and Service information for each Airman may be found on the Commonwealth War Graves Commission Website, and for RAAF airmen, the National Archives of Australia, the Department of Veterans Affairs’ and the Australian War Memorial (fatalities only) Websites.

The history of the Squadron is recorded in the book Strike and Return by Peter Firkins (441386) that has been published in various editions.
